

## CIS 235 In Class Exercise Test #2 Review

Create a Dreamweaver site definition for a "midterm" site (print a screen shot showing the advanced settings for the remote server) Publish the "midterm" site to the cis2 server so that it can be reached at <http://cis2.sc4.edu/~username/midterm> .

Create a *review.html* page. The page should be titled appropriately and have your name as a heading at the top. The content of the page will be a couple key review items from each of the tutorials. Use a table for organizing the content. (see example)

Tutorial	XHTML / CSS elements	Dreamweaver Features	Notes
27	<li> list item tag  div#itemid - <div> with id "itemid"	Navigation Bar	DW nav bars use "behaviors" without calling them that

### Hand In:

- A browser screen shot of review.html on the cis2 server
- A source code print of review.html
- A screen shot of the Dreamweaver site definition
